

Regeneration Directorate – Planning and Building Control

Licence Acknowledgement for the use of Planning Application Information

Planning information is licenced under Open data terms.

Easting's and Northing's have been derived from Ordnance Survey and therefore is licenced under Free to Use Data terms and the following licence agreement must be acknowledged.

*'Walsall Council grants you a non-exclusive, **royalty free, perpetual licence** to use and **sub-license** Intellectual Property Rights in Free to Use Data.'*

Royalty free means it's free for you to use without charge.

Perpetual licence means that you can continue to use the data you have created for ever. You don't require an ongoing licence for the Ordnance Survey dataset from which you inferred the data (unless you intend to use it to display your data).

Sub-license means that you can make the data you have created available to others. You can do so on a commercial basis too if you wish.

Please also note the following:

- The licence granted does not entitle you or your sub-licensees to re-create, reproduce or represent any Feature Attribution or any Feature in any Topographic Dataset (or any substitution of such Feature Attribution or Feature).
- The copyright and source of the Free to Use Data must be acknowledged by including the following attribution statement: 'Contains Ordnance Survey data © Crown copyright and database rights [year of issue]'. The same acknowledgement requirement must be included in any sub-licences of the Free to Use Data that are granted, together with a requirement that any further sub-licences do the same.

Further information can be obtained from the Ordnance Survey website:
