

Early Help Locality

TIME 2 TALK: "PARTNERSHIP, PRACTICE & PROGRESS"

Early Help is a partnership approach, not a provision and very much relies on local services working together with families.

We know that by working together to support families, providing Early Help and eradicating silo working prevents children and young people from entering the care system, increases their chances to have a 'good' life, reduces the likelihood of involvement in crime and helps families into work.

We, the Early Help partnership in 2021 refreshed our focus and following a consultation where the importance of providing and creating opportunities to network was strongly advocated we developed, at a local level our '**Time 2 Talk: Partnership, Practice and Progress**' forums.

These forums are a platform for local services to meet together, network and to:

- Build capacity to improve the delivery of preventative and targeted services to meet local needs
- Create opportunities for integrated partnership at a locality level
- Promote the ambition and opportunities we all have for families across the borough to thrive, ensuring we don't just 'avoid poor outcomes'
- Meet, talk, network

Come and join us, we meet by monthly virtually within each of our 4 localities.
