Message from the Director

Walsall Children deserve the best possible start in life to which a high quality education is critical. We must all support each and every child, and young person, in Walsall to be the very best that they can be and have high aspirations, expectations and ambitions for their future.

Walsall Borough Council has a corporate plan for 2021/22, this contains the Council vision and can be found here

<https://go.walsall.gov.uk/Portals/0/Uploads/AboutTheCouncil/Decision%20Making%20in%20Walsall/69847%20Corporate%20Plan%202021%20-%202022%20FINAL%20PROOF.pdf?ver=2021-04-01-111251-217>

There are 5 strategic priorities of which we primarily contribute to the Childrens priority of the best possible start in life.

In Childrens services we aim to ensure our children have the best possible start in life through our Walsall Right 4 Children (WR4C) Vision- ensuring the right child, is in the right place, at the right time and receiving the right support.

Walsall Right for Children Vision

What we will do

- We will help & support families to be their best
- We will be the best place for children to be in a family home, or where they do not reside, an alternative stable and nurturing home
- We take action when children and young people need to be protected
- We will work to be our most vulnerable children and their families

Our principles

- Listening and responding to the voices of children
- Restorative Practice... doing with, not for or to
- Focus on making a difference

Our priorities

- Locally working
- Quality of practice and support
- Intensive assessment and crisis the gaps
- Developing strong and stable resilience
- Provide our non-residential approach

How we will know we have made a difference?

What children will tell us:

- They understand their own emotions
- They know where to go for help
- They are respected and valued
- They know what to do when they are in trouble
- They know what to do when they are in trouble
- They know what to do when they are in trouble
- They know what to do when they are in trouble

What impact we will experience from a service point of view:

- They understand their own emotions
- They know where to go for help
- They are respected and valued
- They know what to do when they are in trouble
- They know what to do when they are in trouble
- They know what to do when they are in trouble
- They know what to do when they are in trouble

How we will do it

- Be the best place for our children - a common sense, whole system approach
- Strong leadership informed by 'real world'
- Mirror the lives and challenges of local families
- Implement evidence informed change
- Minimise the stability of children in all aspects of their life
- Create a culture of being proud of what we achieve

Our obsessions

- We develop quality connections, conversations and relationships
- We know our children and families well
- We are all champions for Walsall children

Right Children

In the right place

At the right time

For the right amount of time

Access and Inclusion implement this vision through our Access strategy and Inclusion Strategy

The Access strategy will describe how we ensure all children get access to the right place at the right time and our Inclusion strategy will describe how we ensure they get the right support.

Key to implementing this is the work of the Strategic Education Inclusion Board and the strategy groups established. This is one way we will work in partnership to increase the outcomes and life chances of our young people

I have already seen a lot of good work going on across the education sector to improve the outcomes and life chances of children and young people across the borough and whilst this is encouraging, we still have significant challenges to address to ensure the best outcomes for all Walsall children and young people, particularly the most disadvantaged and vulnerable.

Our new locality model and approach is designed to provide the additional resources children and young people and their families may need and crucially make it easy for you to access this support. But, this will need us all to think and behave differently. **High Challenge, High Support** is our developing approach in Children's services based on restorative practice, with mutual respect for the way we work

Thank you for all your continued hard work, commitment and the unique part that you play in helping Walsall Children to be safe, happy and learning well, with self-belief, aspiration and support to be their best.

I look forward to seeing you at Head teacher briefings and on my visits to your schools.

Sharon Kelly
Director of Access and Inclusion
Children's Services
