Notes to Management of Resources

The figures for 2016/17 represent the actual budget and spend for each area within the authority. This will include all internal recharges such as office accommodation, central support services, and accounting adjustments for pension liability in line with FRS17 and capital charges. Capital charges and pension liability year end transactions can change substantially at year end as this is when revaluations of assets and figures from the actuary are received and budgets updated to reflect any changes.

The figures reported for 2017/18 are presented as budget for monitoring. This is where we exclude some internal recharges such as office accommodation, central support services, capital charges and accounting adjustments for pension liability in line with FRS17 and include within the area which manages them. For example all central support services costs are shown within Change & Governance. The reason for this is that only the service that manages the area will be able to report on any forecast under / overspend.
