Notes to Management of Resources

The figures for 2018/19 represent the actual budget and spend for each area within the authority. This will include all internal recharges such as office accommodation, central support services, and accounting adjustments for pension liability in line with FRS17 and capital charges. Capital charges and pension liability year end transactions can change substantially at year end as this is when revaluations of assets and figures from the actuary are received and budgets updated to reflect any changes.

There are planned use of general reserves as approved by Cabinet, which reduces the opening balance of general reserves on 1 April 2019 to £14.85m, in line with the MTF5.
