Fitness Programme

Class descriptions

Aqua Circuits	Aqua circuits are like land-based circuits classes but the exercises are completed in water. There are stations around the pool, each with a different exercise. The added resistance of the water makes for a great workout, with lower impact to the muscle groups.
Tabata	Features 20 second intervals of extreme exercise followed by 10 second intervals of rest. These high intensity workouts will burn calories like no tomorrow.
Body Blitz	Anything goes. Total body workout that combines various disciplines.
Circuits	Body conditioning or resistance training using high intensity aerobics. A series of exercises performed with a small rest between them.
Abs	An upbeat strength class where we target our core with great music to go along with.
L, B & T	Legs, Bums and Tums. A body conditioning workout focusing on the lower body and core.
Yoga	Ancient form of exercise that focuses on strength, flexibility and breathing to boost physical and mental wellbeing.
Pilates	Slow and controlled stretching motions, it puts emphasis on alignment, breathing and developing a strong core and improving coordination and balance.
Zumba	Aerobic fitness featuring movements inspired by various styles of Latin American dance.
Boot Camp	Military style exercises and functional movements like push ups, squats, sprints and sit ups. These programmes are designed to build strength and fitness.
Old Skool Step	A class involving just you and your step box, doing various routines improving your cardio endurance.
Kettlebell	Kettlebell exercises build strength and endurance, particularly in the lower back, legs, shoulders and increases grip strength.
Boxfit	A form of exercise based on boxing training and using boxing equipment. This is a high intensity class working on the members level of fitness.
Acti-kids	Group kids class! All forms of exercises are performed to get the heart racing and have fun. This class is suitable for ages 8 to 15 years.
LesMills	For anyone looking to get lean, toned and fit. This gives a total body workout, that will burn up to 540 calories.
Body Pump	
LesMills	Body Combat is great for burning calories and fat, but will also help build your cardio endurance, it will help with coordination and muscle toning.
Body Combat	
Aquafit	This low-impact class is performed in water and will incorporate cardio and strength, using water dumbbells and other flotation aids.
Floatfit Hiit	A demanding and energetic full body Hiit workout on a floatation board in the pool, suitable for all fitness levels.
Floatfit Balance	A yoga and pilates inspired program on water designed to centre your mind and to challenge your balance.
