Locality Community Support

In partnership with NHS Black Country Integrated Care Board (ICB), Walsall Metropolitan Borough Council have launched a new locality based model of support for the voluntary, community and faith sector within Walsall. The new model is based within Resilient Communities team which encourages a strength based approach which uses the assets in our communities to deliver improved services in partnership.

The new initiative puts residents, trust and co-design at its heart and its focus is what is important to a community. It is wide ranging in terms of scope and utilising four levels in responding to challenges, these are Personal responsibility, Community led solutions, Integrated services and Integrated enforcement. Resilient Communities is about strengthening communities through recognising and harnessing existing assets. The locality leads will support the objectives across the Council's corporate plan and will develop opportunities for local communities to become self-sufficient and independent.

Corporate Social Responsibility and social value

The Council are committed to supporting and promoting Corporate Social Responsibility within our own Corporation and the wider business sectors.

As part of Crowdfund Walsall we will endeavour to share your projects with the business community and incentivise through our contracts, suppliers and procurement, promoting the opportunities that your projects will create.

The Crowdfund Walsall project team will be able to help with this.
