Message from the Director of Access and Inclusion

Walsall Children deserve the best possible start in life to which a **high quality** education is critical. We must all support each and every child, and young person, in Walsall to be the very best that they can be and have high aspirations, expectations and ambitions for their future.

Walsall Borough Council has a corporate plan, this contains the Council vision and can be found here <https://go.walsall.gov.uk/corporate-plan>

The Plan presents the Council's Priorities with identified Outcomes

Our children should:

- have the best possible start
- be safe from harm
- be happy, healthy, and learning well

In Children's services we aim to ensure our children have the best possible start in life through our Walsall Right 4 Children (WR4C) Vision- ensuring the right child, is in the right place, at the right time and receiving the right support.

Walsall Right 4 Children – Our Aspiration

“Every child and family in Walsall is understood, feels happy and safe, with a strong sense of belonging enabling them to learn, achieve and succeed”

Our WR4C aspiration will be delivered through a relentless focus on our **five foundations** underpinning everything we do and **four priorities** driving our work.

Our Priorities

- Empowering Futures from Early Years
- Cultivating Belonging
- Workforce
- Big Conversation/ Big Collaboration with Children

Our Foundations

- We will focus on understanding children's lived experiences and how we can improve them.
- We will work with children, young people and families and their local communities enabling them to make positive and sustainable connections.
- We will focus on or actively addressing gaps in equality and racism.
- We will learn and improve together – we will drive a culture of continuous improvement by diligently closing the learning loop.
- We will continue to be proud of what we do and celebrate our achievements.

Access and Inclusion implement this vision through our Access strategy and Inclusion Strategy.

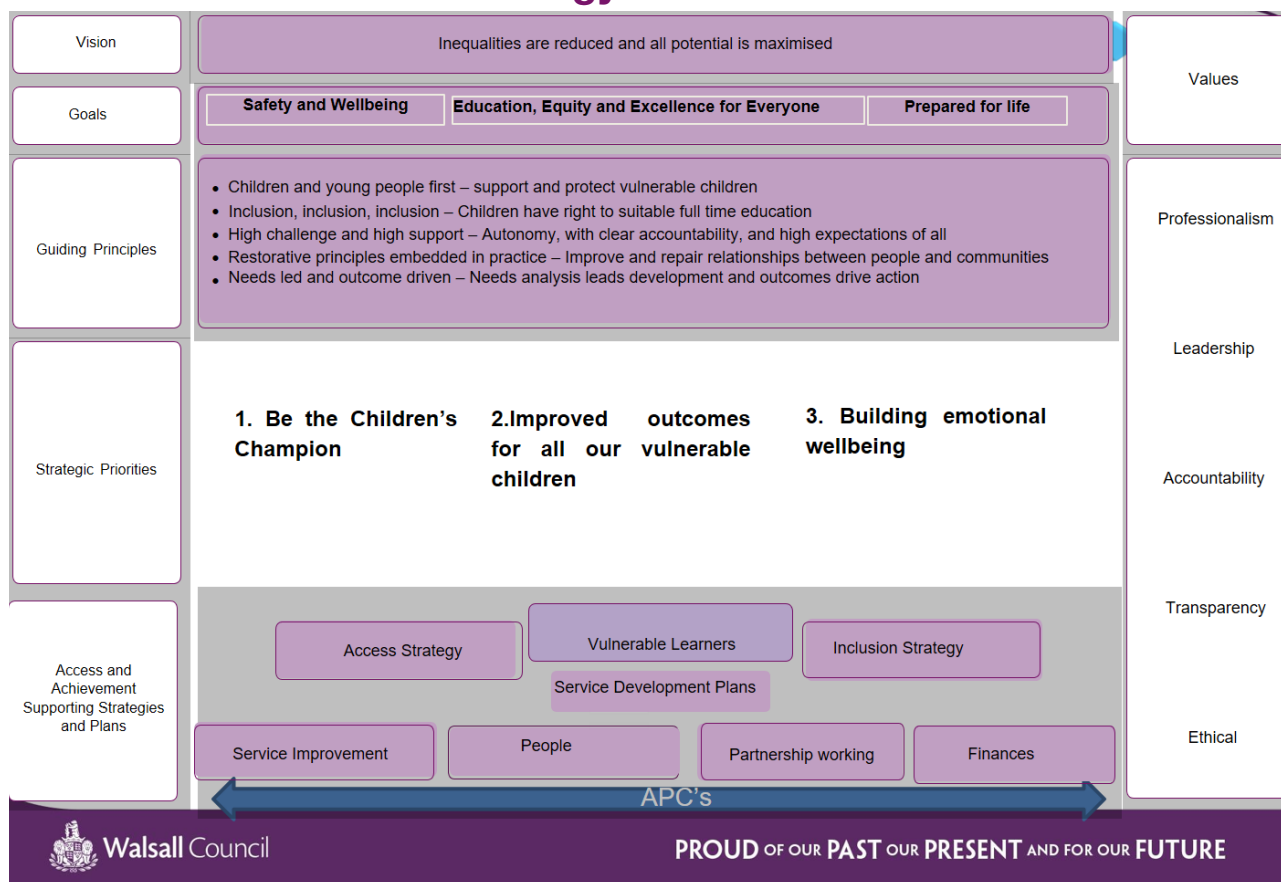

The Access strategy will describe who we ensure all children get access to the right place at the right time and our Inclusion strategy will describe how we ensure they get the right support. The Inclusion strategy will also describe how we are overseeing the attendance of our most vulnerable children including those with a social worker and/or and EHCP.

Key to implementing this is the work of the Walsall Learning Alliance. This is one way we will work in partnership to increase the outcomes and life chances of our young people.

We have already seen a lot of good work going on across the education sector to improve the outcomes and life chances of children and young people across the borough and whilst this is encouraging, we still have significant challenges to address to ensure the best outcomes for all Walsall children and young people, particularly the most disadvantaged and vulnerable.

Below is an overview of our Access and Inclusion Strategy:

Access and Inclusion Strategy 2022-25: Overview

Our new locality model and approach is designed to provide the additional resources children and young people and their families may need and crucially make it easy for you to access this support. But, this will need us all to think and behave differently. **High Challenge, High Support** is our developing approach in Children's services based on restorative practice, with mutual respect for the way we work.

Thank you for all your continued hard work, commitment and the unique part that you play in helping Walsall Children to be safe, happy and learning well, with self-belief, aspiration and support to be their best.

I look forward to seeing you at Head teacher briefings and on my visits to your schools.
